This is Deguchi, CFO.

Thank you very much for joining this briefing today.

I will now explain the outline of the financial results for the third quarter of FY2025, following the presentation materials.

**AGENDA :**

1. Highlights
  2. Income Statement
  3. Balance Sheet
  4. New Orders / Backlog
- Appendix**

社会の“かなえたい”を共創する  
エンジニアリング  
*Enriching Society through Engineering Value*

# 1. Highlights

## 3Q Results

- ✓ Significantly increased income and profit compared to the same period last year, reflecting the revised profitability based on the amended Engineering, Procurement and Construction (EPC) contract on the Golden Pass LNG project.
- ✓ Upward revision of full year consolidated earnings forecast (as disclosed on January 28, 2026)

## New Orders

- ✓ Awarded EPC projects in the Metals and Advanced Materials field
- Progress towards full-year order target reached 98% and endeavors to secure more further continue.

## New Capital Policy\*<sup>1</sup>

- ✓ Agreed to amend terms of the Class A Preferred Shares held by Mitsubishi Corporation\*<sup>2</sup>, aiming for full redemption of the shares during the 'Business Plan 2025' period.
- Next mid-term plan positioned as a full-scale growth trajectory toward the vision for the next 10 years

\*<sup>1</sup> : Disclosed with 'Notice of Agreement regarding the redemption plan of Class A Preferred Shares and Partial Amendment to Articles of Incorporation' dated January 28, 2026.  
\*<sup>2</sup> : Based on the Articles of Incorporation, to be partially amended and approved at the 98th Ordinary General Meeting of Shareholders in June 2026.

2

Please refer to the lower right of page 2, "1. Highlights".

The first point concerns the "Results" for this third quarter.

As a result of improved profitability following the signing of the contract for the Golden Pass LNG project in the U.S., we achieved a significant increase in profit YOY. Based on this, as announced on January 28, we revised upward our full-year consolidated financial forecast.

The second point concerns "Orders".

Mainly in Japan, we received EPC orders in the Metals and Advanced Materials fields. As a result, progress toward the order target for this fiscal year reached 98%. We will continue working to secure further orders.

The third point concerns the "New Capital Policy".

As also announced on January 28, we decided to amend the terms of the A-class preferred shares with the aim of redeeming all preferred shares.

By completing the redemption during the Business Plan 2025, we aim to achieve financial independence.

In the next medium-term management plan, we will shift to a full-scale growth trajectory toward realizing our "10 Year Vision".

3

Next, please see the lower right of page 3, "2. Income Statement".

The results for the third quarter are shown in the dark blue column of the table, and the year-on-year changes are shown in the column on the right. The revised full-year forecast announced on January 28 is shown in the third column from the right, and the progress rate toward the full-year forecast is shown in the column to its right.

The previous full-year forecast is shown in the gray column on the far right.

Net Sales for the third quarter were 388.2 billion yen, representing a 42.1 billion yen increase YOY. This was due to improved profitability in the Golden Pass LNG project and steady progress in ongoing projects.

Profit also improved accordingly.

Gross Profit was 91.1 billion yen,

Operating Profit was 77.7 billion yen,

Ordinary Profit was 83.1 billion yen,

and Net Profit was 78.2 billion yen,

with all items showing significant improvement over the previous year.

As noted outside the table, the breakdown of gross profit by segment was 80.9 billion yen for the Energy segment and 10.2 billion yen for the Global Environment segment.

As explained during the briefing on January 28 regarding the upward revision and capital policy, several one-off factors affecting increased profitability in

domestic and overseas projects cannot be disclosed due to the nature of customer relationships and project-level confidentiality. We appreciate your understanding.

### 3. Balance Sheet

Next, I will explain the Balance Sheet.  
Please refer to the lower right of page 4.

Total assets at the bottom left of the table increased by 20.3 billion yen from the end of the previous fiscal year to 481.3 billion yen.

Although there were increases and decreases depending on the progress of ongoing projects, there were no major changes.

As shown in the table on the right, shareholders' equity increased by 83.5 billion yen compared to the end of the previous fiscal year, reaching 107.2 billion yen.

The equity ratio improved significantly to 22.3%.

## 4. New Orders / Backlog

|                    | FY2025 3Q New Orders | FY2025 3Q Backlog |
|--------------------|----------------------|-------------------|
| Energy             | 155.3                | 493.1             |
| Global Environment | 89.0                 | 163.7             |
| Total              | 244.4                | 656.8             |

### [Major Backlog Projects]

| Global Environment | ---              | • Large Solid Electrolyte Pilot Plant, Japan | • Advanced Material Plant, Japan<br>• Large-scale Lithium Sulfide Production Facility, Japan<br>• Biopharmaceutical Manufacturing Plant, Japan |

© Chiyoda Corporation 2026, All Rights Reserved.

5

Next, please see the lower right of page 5, "4. Orders Received and Order Backlog".

Orders totaled 244.4 billion yen, mainly due to receiving an EPC order from Idemitsu Kosan Co., Ltd. for a large-scale solid electrolyte pilot facility aimed at the practical application of all-solid-state batteries in the Global Environment segment.

The major projects in the Order Backlog are shown in the table at the bottom of the slide.
