Notice Regarding McDermott Second Quarter 2018 Financial Results Release

The CCJV (Joint Venture between Chiyoda International Corporation, an US subsidiary of Chiyoda Corporation, and McDermott International, Inc.) is now conducting EPC for the Cameron LNG project in Louisiana State, USA.

McDermott announced their own revision to the cost estimate (expected cost increase) to the Cameron LNG project in its 2Q-2018 Financial Results on July 31, 2018 (August 1, 2018 JST), however Chiyoda is separately assessing its impacts to the project.

If any changes are necessary they will be announced in Chiyoda's first quarter financial results scheduled for release on August 8, 2018, or when deemed appropriate by management.
