(2) Director compensation for the year under review

① Policy for determining compensation

At Chiyoda, the Board of Directors approves the guidelines for deciding the compensation for individual directors (excluding directors who are Audit and Supervisory Committee members; hereinafter referred to as "directors" in section (2)①). Within the aggregate compensation limit decided at the Ordinary General Meeting of Shareholders, and based on the compensation standards set each year by the Board of Directors, the compensation for individual directors is decided by the Board of Directors after discussions among the Representative Directors regarding the state of the business, economic conditions, and annual individual performance evaluations.

Independent outside directors and full-time Audit and Supervisory Committee members participate in discussions during the evaluation and decision-making process, and listening to their views raises the level of objectivity and transparency, ensuring the validity of the process; furthermore, the design of the compensation system is reviewed by the Board of Directors as necessary.

Additionally, the Board of Directors has determined that the method for setting the compensation for individual directors for the year under review as well as the amounts decided are consistent with the guidelines decided by the Board of Directors, and are therefore in accordance with these guidelines. The compensation for directors who are Audit and Supervisory Committee members is deliberated and decided at the Audit and Supervisory Committee.

An overview of the guidelines for deciding the compensation for individual directors is presented below. Chiyoda's executive compensation plan is designed to strengthen the link to performance, ensure that directors share the values of our shareholders, and improve the desire and drive to boost the company's performance. To that end, it comprises base compensation, performance-based compensation, and performance-based stock compensation. The proportions of base compensation, performance-based compensation, and performance-based stock compensation are set in such a way as to ensure that compensation functions appropriately as an incentive for each director involved in business execution to enhance enterprise value, while also functioning to appropriately reflect the degree of contribution to higher enterprise value. Outside directors receive only the base compensation that takes into consideration the substance of their duties.

The base compensation for Chiyoda directors is paid monthly, and is linked to individual performance, along with their job responsibilities.

To incentivize better business performance in the near term, performance-based compensation is calculated by multiplying the standard amount for each position by a coefficient corresponding to the performance for each period, taking into consideration quantitative factors such as the level of profit attributable to owners of parent and dividends, and is paid annually at a set time.

To incentivize better business performance over the medium to longer term, the Performance-Based Stock Compensation Plan uses the scheme commonly referred to as a Board Incentive Plan (BIP), a trust-type stock compensation plan that delivers shares or pays the monetary amount equivalent to the proceeds of those shares in accordance with the recipient's position and the level of accomplishment relative to performance goals.

(Content of resolution at the 93rd Ordinary General Meeting of Shareholders held on June 23, 2021)

Position	Category (name)	Compensation rationale	Description of the compensation plan
Directors who are not Audit and Supervisory Committee Members	Base compensation	Linked to job responsibilities and individual performance	Up to 290 million yen annually. (Up to 30 million yen annually for outside directors)
	Performance-based compensation	Based on performance during the period, taking into consideration quantitative factors such as the level of profit attributable to owners of parent and dividends	
	Performance-based stock compensation	Linked to medium to long term performance improvement	- Up to 70 million yen annually to be contributed by Chiyoda. - Up to 240,000 shares to be delivered as stock or as the monetary proceeds of the sale of stock to directors. * The initial eligible period is three fiscal years from the year that ends on March 31, 2022 to the year that ends on March 31, 2024.
Audit and Supervisory Committee members	Base compensation	Linked to job responsibilities	Up to 60 million yen annually.

② Total compensation for the year under review

	Total amount of compensation (million yen)	Total amount of compensation by type (million yen)			No. of persons
		Base compensation	Performance-based compensation	Performance-based stock compensation	
Directors who are not Audit and Supervisory Committee members (Outside directors)	202 (20)	138 (20)	35 (-)	28 (-)	9 (3)
Directors who are Audit and Supervisory Committee Members (Outside directors)	43 (19)	43 (19)	(NA)	(NA)	3 (2)
Total (Outside directors)	245 (40)	181 (40)	35 (-)	28 (-)	12 (5)

Notes:

1. The figures above show the number of directors who received compensation for the year under review, including four directors (including one Outside director), who completed their terms as of the end of the 94th Ordinary General Meeting of Shareholders held on June 23, 2022.
2. Performance-based compensation is calculated by multiplying the standard amount for each position by a coefficient that reflects these quantitative factors in Item ① above.
3. For performance-based stock compensation, a trust has been established, and points are granted to directors at a set time each year based on their positions and actual achievement of given performance goals (current profit attributable to owners of parent). In principle, when a director leaves the company, they will receive a distribution of the number of Chiyoda shares that corresponds to certain percentage of the Cumulative Points granted through the trust, and the number of Chiyoda shares corresponding to the remaining points will be converted to cash in the trust, and they will receive payment in the amount equivalent to the proceeds of that conversion.
4. Profit attributable to owners of parent was chosen as the performance benchmark that serves as the basis for calculating performance-based compensation and performance-based stock compensation because it is thought to be appropriate for strengthening the link to performance and improving the desire and drive to boost the company's performance. The profit attributable to owners of parent used in calculating performance-based compensation and performance-based stock compensation for the year under review is 15,187 million yen.
5. At the 93rd Ordinary General Meeting of Shareholders held on June 23, 2021, the shareholders approved a limit of up to 290 million yen per year (up to 30 million yen per year for outside directors) in monetary compensation for Directors (excluding Audit and Supervisory Committee Members), and also, separate from this monetary compensation, a limit of up to 70 million yen per year to be contributed by the Company for performance-based stock compensation and a limit of up to 240,000 shares per year to be delivered as stock or as the monetary proceeds of the sale of stock to Directors (excluding Audit and Supervisory Committee Members). The number of Directors (excluding Audit and Supervisory Committee Members) at the conclusion of this Ordinary General Meeting of Shareholders was eight (including two outside Directors).
6. At the 93rd Ordinary General Meeting of Shareholders held on June 23, 2021, the shareholders approved a limit of up to 60 million yen per year in monetary compensation for Directors (Audit and Supervisory Committee members). The number of Directors (Audit and Supervisory Committee Members) at the conclusion of this Ordinary General Meeting of Shareholders was three.

(3) Outside directors

① Relationships between Chiyoda and other corporations and other entities where directors concurrently hold significant positions

There are no special business relationships between Chiyoda and entities where directors concurrently hold positions.

② Director activity during the year under review

Category	Name	Attendance, remarks, and duties performed in relation to expected role

3. Independent auditor

(1) Name of the independent auditor
Deloitte Touche Tohmatsu LLC

(2) Compensation to the independent auditor in the year under review

① Compensation to the independent auditor in the year under review
170 million yen

② Total amount of monetary and other financial benefits that must be paid by Chiyoda and Chiyoda subsidiaries
194 million yen

Notes:

1. The contract with the independent auditor does not separate the fee for the Companies Act audit and the fee for the Financial Instruments and Exchange Act audit, so the compensation amount shown in Item ① above is the total for both.
2. Of our major subsidiaries, our foreign subsidiaries are audited by an auditing firm other than our independent auditor.
3. The Audit and Supervisory Committee determined that the compensation to the independent auditor was appropriate and gave its consent as provided in Paragraphs 1 and 3 of Article 399 of the Companies Act. It did so after receiving the necessary materials and hearing reports from directors, related departments within the company, and the independent auditor. Along with verifying the details of the audit plan, including the auditing framework to be used by the independent auditor, as well as the basis for calculating the estimated fee, such as the time and rate, it also took into consideration the previous year's performance, other non-auditing work contracted to the firm, and examples at other companies.

(3) Policy for dismissing or declining the reappointment of the independent auditor

The Audit and Supervisory Committee will dismiss the auditing firm that is the independent auditor ("current independent auditor") by unanimous consent of the Audit and Supervisory Committee members under any of the circumstances listed in Article 340, Paragraph 1 of the Companies Act.

Under such circumstances, the Audit and Supervisory Committee will appoint a temporary independent auditor if necessary, and the Audit and Supervisory Committee member selected by the Audit and Supervisory Committee will also report and explain the reasons for the dismissal of the current independent auditor and the appointment of the temporary independent auditor at the first Ordinary General Meeting of Shareholders convened after such dismissal.

If it becomes difficult for the current independent auditor to properly carry out the audit for some reason, or if it is determined that the current independent auditor must be changed in light of the quality, validity, or efficiency of the audit being performed by the current independent auditor, the Audit and Supervisory Committee will decide on a proposal to decline the reappointment of the current independent auditor and appoint a new independent auditor. Under such circumstances, at the Ordinary General Meeting of Shareholders the Audit and Supervisory Committee member selected by the Audit and Supervisory Committee will report and explain the reasons for declining to reappoint the current independent auditor and appointing a new independent auditor.

Note: The Audit and Supervisory Committee decided the foregoing on June 23, 2022.

4. Frameworks and policies

Overview of the framework to ensure that the execution of duties by directors complies with laws and regulations and the Articles of Incorporation, framework to ensure that business is otherwise properly conducted, and the status of these systems

<Framework to ensure that business is properly conducted>

An overview of the framework established to ensure that business is properly conducted, approved by the Board of Directors (Basic Policy for Internal Control Systems), is presented below. (Latest revision: March 28, 2023)

[Basic approach to internal control systems]

In accordance with laws and regulations, Chiyoda puts in place and uses internal control systems to ensure that business is properly conducted. An Internal Controls Committee, chaired by the CFO, has been established to strengthen our internal controls. This committee coordinates and collects opinions within the company and proposes improvements to internal controls to the Representative Director & President at the end of each period or as necessary. The Representative Director & President then reviews and approves such proposals through the Executive Committee, and Board of Directors makes any decisions regarding the internal control systems.

[Status of internal control systems]

1. Regulatory compliance framework

(1) Chiyoda places the highest priority on conducting business in compliance with Japanese and foreign laws and regulations and in accordance with our corporate ethics. We carry out our business activities in accordance with our Corporate Philosophy and the Chiyoda Group Code of Conduct.

Additionally, with the objective of supporting sustainable growth and the medium to longer term enhancement of corporate value, we have established a Corporate Governance Policy that sets out our fundamental approach to corporate governance and our basic policy, and we endeavor put this into practice as the foundation of our business activities. The directors take the initiative in setting an example, and the Board of Directors oversees the execution of duties by the directors to ensure regulatory compliance.

(2) To strengthen the regulatory compliance framework, Chiyoda creates the position of Chief Compliance Officer (CCO) and the Compliance Committee. Furthermore, in addition to raising the awareness of our officers and employees by establishing related rules and manuals, conducting various training programs, and providing relevant information, Chiyoda also improves the effectiveness of our compliance efforts by establishing an internal whistleblower program and an advice desk. Those who have made reports or sought advice may not be subjected to retaliatory treatment as a result of the information reported.

(3) In its decision-making process, the Board of Directors reviews legal issues and business decision-making processes with legal advisors as necessary to improve objectivity and transparency.

(4) The Internal Audit Department performs audits of regulatory compliance within company departments and reports to the Board of Directors.

(5) Chiyoda resolutely confronts anti-social forces and does not furnish benefits to them. If we receive an improper demand from an anti-social force, we will address it as an organization by coordinating with outside professionals such as law enforcement and our legal counsel.

2. Information retention and management framework

(1) Chiyoda ensures that the information handled by directors in the execution of their duties is properly retained and managed by defining basic matters such as the documents covered, the responsible manager, and the retention period through internal rules governing the management of documents and confidential information.

(2) Chiyoda properly retains and manages the minutes of important meetings such as Board of Directors and the Executive Committee meetings, which are prepared in accordance with laws and regulations as well as internal rules.

3. Loss management framework

- (1) The head of the department that is responsible for companywide risk management collaborates with the chief officer in charge and the department heads to build loss management systems for various types of risks, in accordance with internal rules and various manuals.
- (2) Winning orders for projects and then executing them is at the very core of our business. As part of our strategy of accepting orders only after taking into consideration the financial size of our company and the number of employees, we have established a permanent department that is responsible for managing project risk from start to finish. This department deliberates risk at every stage, starting before we even take up a project, and reviews every stage, including estimate guidelines and proposals. On the project execution side, the department provides management and project support both in terms of execution support and internal checks. It does this by establishing multi-track reporting lines, strengthening autonomous risk management within operating divisions, strengthening inter-department cooperation, and introducing mechanisms that make it possible to visually represent P&L and risk with a high degree of frequency.
- (3) A permanent department has also been established to oversee crisis management across the company, and it oversees the activities of the risk managers assigned to each department in an integrated fashion. While being constantly engaged in prevention and control activities such as disseminating relevant information and giving warnings, this risk oversight department also responds in emergencies by serving as a central coordinating office when a crisis arises.

4. Efficiency framework

- (1) The Board of Directors makes decisions regarding company-wide management policies and important business actions, and it formulates specific business plans in order to achieve management goals. Additionally, to ensure that business decisions can be made swiftly, to the extent that it does not conflict with laws and regulations, some authority is transferred to the Representative Director & President to ensure that these duties are carried out efficiently. Seeking to improve efficiency through matrix management, we have also established committees as organizations that cut across business departments. Specifically, to strengthen governance we have established the Internal Controls Committee, Compliance Committee, SQEI Management Committee, and Sustainability Committee. The Board of Directors appoints the chair of each committee. To strengthen business strategy and companywide resource allocation, we have established the Integrated Strategy Committee, Carbon-free Business Promotion Committee, Project Competitiveness Committee, and Human Resources Development Committee. The company president appoints the chair of each committee.
- (2) To help ensure that management goals are achieved in an efficient manner, we have adopted a nimble organizational structure and clarified and delegated authority based on our internal rules governing authority and the assignment of duties.
- (3) To improve work efficiency across the company, internal rules are systematically developed and then enforced and administered in an appropriate way. We proactively use information systems to share information about these rules and analyze them.

5. Company group internal control framework

- (1) Through our Corporate Philosophy and the Chiyoda Group Code of Conduct, Chiyoda Group makes clear the values that are to be shared by all officers and employees of group companies, and Chiyoda and our group companies maintain close cooperation while carrying out our business.
- (2) Along with establishing internal rules to ensure that business is carried out in an appropriate and efficient manner as the Chiyoda Group, the group companies are managed and supervised by designating a supervising department for each group company. Furthermore, a permanent department will be established to draft plans and proposals, exercise control, and provide instructions in relation to the group companies.
- (3) Group companies will establish an internal control framework that is consistent with Chiyoda's, including systems for reporting information to Chiyoda in a timely and appropriate manner and internal whistleblower programs, based on thinking that is consistent with Chiyoda's. Specifically, to address regulatory compliance, we will establish the Group Company Compliance Liaison Committee, comprising members from the group companies, to facilitate information sharing within Chiyoda Group.

Risk management and crisis management systems that follow the Chiyoda framework are being developed for the group companies. Chiyoda's Internal Audit Department conducts internal audits of the group companies.

- (4) For major group companies, a member of Chiyoda's Audit and Supervisory Committee concurrently serves as auditor, and may conduct proper investigations as necessary.

6. Framework to ensure the effectiveness of audits by the Audit and Supervisory Committee

- (1) A dedicated staff member will be assigned to assist the Audit and Supervisory Committee in performing its duties, in order to support their auditing activities.
- (2) To ensure the independence of that staff member and to ensure the effectiveness of the instructions to that staff member, the personnel evaluations for that staff member are performed by the Audit and Supervisory Committee, any personnel changes must be approved in advance by the Audit and Supervisory Committee, and that staff member may not concurrently serve in any role concerning the execution of our business.

7. Audit and Supervisory Committee reporting framework

- (1) At the request of the Audit and Supervisory Committee, officers and employees report on their activities relating to internal controls on a regular basis or whenever important matters arise. Chiyoda will not subject those officers and employees who have made reports to the Audit and Supervisory Committee to retaliatory treatment as a result of a report.
- (2) In order to ensure the effectiveness of audits conducted by the Audit and Supervisory Committee, the representative directors meet regularly with the Audit and Supervisory Committee to exchange views on reports made by officers and employees to the Audit and Supervisory Committee. Additionally, when the Audit and Supervisory Committee asks that a member or members of the Audit and Supervisory Committee be seated at an Executive Committee meeting or other important meeting, the representative directors address such requests.
- (3) To ensure the effectiveness of reporting by group companies, the Audit and Supervisory Committee meets regularly with the auditors from major group companies to exchange views and share information about the group's internal control framework.
- (4) When the Audit and Supervisory Committee requests that an independent outside expert be appointed for an audit by the Audit and Supervisory Committee members, Chiyoda will bear the expense unless it is shown to be clearly unnecessary with respect to the duties of the Audit and Supervisory Committee members.

8. Framework to ensure reasonableness of financial reports

- (1) Chiyoda and our major group companies have developed and use an internal control framework, such as documenting business rules, to ensure the reasonableness of our financial reports as required under the Financial Instruments and Exchange Act. If a new risk is recognized or if some sort of defect or deficiency in this system is discovered, we work to promptly improve the framework.
- (2) To ensure the effectiveness of the internal control functions for financial reports spanning the entire organization, Chiyoda has established a highly independent Internal Audit Department in order to gauge and verify the actual state of control activities within each department using audits of daily operations and other means.

<Overview of the status of framework to ensure that business is properly conducted>

Chiyoda uses internal control systems that are based on the basic approach to internal control systems that has been approved by the Board of Directors. The Internal Controls Committee, which was established based on these systems, is made up of a small number of directors who are closely involved in internal control systems and is chaired by the head of the Strategy & Risk Integration Division. The committee accelerates further improvements to internal control systems by grasping the circumstances in which Chiyoda operates as well as social changes in a timely manner, expediting decision-making, and swiftly issuing instructions to the relevant departments. It also makes recommendations to the Representative Director & President aimed at strengthening governance.

The Internal Controls Committee met twice during FY2022 to check the status of each department and share information. The Internal Controls Committee plans to meet twice in FY2023.

Major initiatives in FY2022:

① Regulatory compliance initiatives

- The Chief Compliance Officer (CCO) regularly reports to the Board of Directors on the specific circumstances of important compliance-related cases, such as cases involving reputational risk to the Chiyoda Group and cases that could affect Chiyoda's business. The substance of these reports and any instructions or requests from the Board of Directors are shared with the compliance officers from various units and group companies at the Compliance Committee, leading to the implementation of effective measures to prevent such incidents from occurring.
- We provided e-Learning programs about regulatory compliance and held seminars about harassment, corruption, and human rights.
- The Internal Audit Department conducted audits of our compliance program, compliance framework, and compliance-related documentation.

② Information retention and management framework

We have obtained ISMS certification for Chiyoda and key group companies. We are also working to avoid and minimize the impact of information security risks, including addressing cyber-attacks, taking steps such as developing an initial response manual for cyber-attacks, and building an environment for a quick recovery from any ransomware infection.

③ Loss management initiatives

- With respect to risk management, when we are seeking to win the order for a project, the responsible department conducts a cold eye review and relevant corporate units submit their opinions to the Executive Committee as we strictly assess risk and determine whether to accept the order.
- On the project execution side, we continued to establish multi-track reporting lines, strengthen autonomous risk management within operating divisions, and strengthen inter-department cooperation. We built a company-wide support system for important projects, making it possible to visually represent P&L and risk, and expanding the scope to encompass medium sized projects and projects with deteriorating profitability (including subsidiary projects).
- In conjunction with the transformation of our business portfolio, we are working to strengthen risk management systems for projects in new fields.
- We implemented safety measures across the company and all construction sites for crisis events that could affect our performance both inside and outside of Japan (including geopolitical risks and infectious diseases risks), and we have also measures to minimize the impact of higher costs due to inflation and other factors.

④ Efficiency initiatives

- To improve the information flow to directors and support a smooth decision-making process, the directors are provided with a report on the state of the business each quarter, rotating reports on the state of the divisions, and quick-response reports when there is substantial movement on a major project.
- Committees hold regular meetings and deliberations and report the results of their discussions to the Executive Committee and the Board of Directors. The Consolidated Management Promotion Committee has fulfilled its purpose as the committee charged with making decisions about the integration and merger of three domestic subsidiaries, so it was dissolved in FY2022, but the divisions will continue to work to deepen consolidated management.
- To firmly establish a new human resources system in line with our Human Resource Development Policy, we measured the effectiveness of the system, reported this to the Board of Directors, and identified various issues. The Human Resources Management Committee was launched in FY2022 to address the issue of bringing up a new generation and successors for organizational managers and key people. The division heads serve as its members, and meetings are attended by the company's representative officers. Through this committee's discussions and the decisions reached, the committee expedites decisions on measures to be taken and it has made the deliberation process leading up to organizational decisions transparent.
- As part of work process innovation, we established a CDO office, and we continued to pursue system improvements, faster RPA, work-life balance reform, health and productivity management, and cost reductions. We also obtained certification as a "DX-Certified Operator" under the Digital Transformation Certification program, which is being advanced by the Ministry of Economy, Trade and Industry's IPA Information-technology Promotion Agency.

⑤ Company group internal control initiatives

- Through our Corporate Philosophy and the Chiyoda Group Code of Conduct, as well as the Revitalization Philosophy that we published in support of our Revitalization Plan, Chiyoda Group makes clear the values that are to be shared by all officers and employees of group companies, and Chiyoda and our group companies maintain close cooperation while carrying out our business.
- As part of Chiyoda Group's regulatory compliance efforts, compliance-related departments worked to raise regulatory compliance awareness in order to instill the CCO's guidance at major group companies. In addition, highly effective and specific countermeasures, based on case studies, were brought to group companies through vehicles such as the Group Companies Compliance Liaison Committee.
- At group companies inside and outside of Japan, to instill compliance awareness in the workplace, we conducted educational activities such as seminars tailored to each company. Moreover, we are working to strengthen the internal control system by monitoring our overseas group companies by using checklists for regular verifications.
- In anticipation of the imposition of overtime limits in April 2024, we are working to strengthen our systems for properly managing working hours, holidays, and vacations at our construction sites in Japan.

⑥ Initiatives concerning audit reports and ensuring the effectiveness of audits by the Audit and Supervisory Committee

- The representative directors receive reports and exchange views on the status of the execution of auditing duties by regularly meeting with the Audit and Supervisory Committee members, who in turn gather information from organizational heads.
- Audit and Supervisory Committee members attend meetings of the Executive Committee, Compliance Committee, and other important meetings. In order to liaise with internal control departments, they also attend meetings of the Internal Controls Committee and offer opinions.
- The Audit and Supervisory Committee members met regularly with the auditors from major group companies, and exchanged views and shared information about the internal control framework for the company group.

⑦ Framework to ensure reasonableness of financial reports

- The Company has assigned an accounting officer who, along with carrying out accounting functions in accordance with generally accepted accounting standards, prepares and discloses financial statements in compliance with laws, regulations and accounting standards.

Proposals and Reference Items

Proposal 1: Partial Amendment to Articles of Incorporation

1. Reason for proposal

Along with introducing an executive officer system to promote efficiency in executing its business, Chiyoda has endeavored to ensure the efficiency and soundness of its management by having the Board of Directors make decisions on important management matters and oversee the execution of business operations.

Now, in order to build an optimal and flexible executive organization, we have made a change to the rank of the position of president, who is the chief executive officer responsible for business execution, in order that the president may be selected from among executive officers who are not directors of the company as necessary, depending on the company's circumstances.

In accordance with the foregoing, Chiyoda amends a part of Article 21 and 27 of the current Articles of Incorporation.

2. Detail of Amendments to Articles of Incorporation

The changes are as follows:

(Amended parts are underlined.)

Current Articles of Incorporation	Proposed Changes

Proposal 2: Appointment of Seven Directors who are not Audit and Supervisory Committee Members

The term of all seven Directors who are not Audit and Supervisory Committee Members will expire at the close of this General Meeting of Shareholders.

Therefore, Chiyoda proposes to elect seven Directors who are not Audit and Supervisory Committee Members.

This Proposal was deliberated in the Audit and Supervisory Committee and obtained the opinion that all the nominees are qualified.

The candidates for Director are as follows.

If Proposal 2 and Proposal 3 are approved as originally proposed, Chiyoda's directors and Audit and Supervisory Committee members will possess the skills and experience listed in the table below.

[Reference] Independence Standards

To achieve appropriate decision making and management oversight by the Board of Directors from a variety of perspectives, the Company appoints Outside Directors from among highly insightful persons who possess objective and professional perspectives (persons who fulfill the requirements set forth in Article 2, Item 15 of the Companies Act). The Company bases the independence of Outside Directors on the factors determining independence set forth by Tokyo Stock Exchange, Inc. and deems an Outside Director to be independent if none of the following items are applicable.

1. Major Client or Supplier

- (1) A party for whom the Company is a major client or supplier (Note 1) or an executive thereof
- (2) A party that is the Company's major client or supplier (Note 2) or an executive thereof

2. Experts

Consultants, accountants, lawyers and persons affiliated with such organizations who receive annual compensation of 10 million yen or more in cash or other assets from the Company, other than compensation for directors and audit & supervisory board members

3. Major Shareholders

Major shareholders of the Company (a party holding 10% or more direct or indirect voting rights) or an executive thereof

4. Donation Recipients

Recipients to whom the Company donates in excess of an annual 10 million yen or an executive thereof

5. Historical Requirements

A party to whom any of 1. to 4. above applies in the past 10 years

6. Close Relatives

Spouse or relative within second degree of kinship of the following persons:

- (1) A party to whom any of 1. to 5. above applies
- (2) A Director, Executive Officer or other core employee of the Company or its subsidiary (Note 3)

7. Any party other than the above in special circumstances that do not allow said party to fulfill duties as an independent Director, including the existence of conflict of interest with the Company

The Company's Board of Directors will make efforts to nominate as candidates for the position of Independent Director persons who can be expected to contribute to frank, lively and constructive deliberations at the Board of Directors in accordance with these standards.

- (Notes) 1. "A party for whom the Company is a major client or supplier" refers to a party who received payment equivalent to 2% of said party's annual consolidated net sales or payment of 100 million yen or more, whichever is the higher of the two, in the most recent fiscal year.
2. "A party that is the Company's major client or supplier" refers to a party whose transactions with the Company were equivalent to 2% or more of the Company's annual consolidated net sales in the most recent fiscal year, or a party who provided loans to the Company equivalent to 2% or more of the Company's consolidated total assets in the most recent fiscal year.
3. "Core employee" refers to Division Director or superior.
