**Chiyoda Awarded Engineering, Procurement, and Construction Contract
for New THC Catalyst(*1) Plant in Japan**

Chiyoda Corporation(“Chiyoda”, TSE:6366, ISIN: JP3528600004) is pleased to announce that it has been awarded an Engineering, Procurement, and Construction (EPC) contract by Toho Titanium Co., Ltd (“Toho Titanium”) for the new THC Catalyst plant.

1. Client: Toho Titanium Co., Ltd
2. Location: Chigasaki, Kanagawa Prefecture, Japan
3. Scope : EPC Lump Sum
4. Scheduled Completion: End of August, 2022
5. Project Outline:

THC catalyst is a magnesium-titanium based Ziegler-Natta catalyst widely used for polymerization of propylene monomer into polypropylene, and is one of the main products of Toho Titanium.

Chiyoda was selected as their partner from the initial planning phase of this important Project, which was followed by the EPC Contract awarded to construct a new THC Catalyst production plant contributing to expanding the catalyst business of Toho Titanium.

Chiyoda has proven track records of both domestic and overseas projects for Toho Titanium. Its abundant project experience and engineering capability led to the award of the contract.

Chiyoda positions “Metals and Mining” as one of its priority business fields and is actively pouring its efforts into contributing to metal and mining projects all over the world.

*1: THC Catalyst stands for “Toho High efficiency Catalyst”
