Completion of Electrical and Instrumentation Work for the Expansion of the Fourth Photosensitive Material Manufacturing Plant for Toyo Gosei Corporation at their Chiba Plant

Chiyoda X-ONE Engineering Corporation (CXO) is pleased to announce that it has completed the electrical and instrumentation work for the expansion of Photosensitive Materials Plant No. 4 for Toyo Gosei Co., Ltd at their Chiba Plant, awarded in February 2023.

Project Details:

1. Client Name : Toyo Gosei Co., Ltd.
2. Project Name : EPC Work for Expansion of Photosensitive Materials Plant No. 4
3. Location : Chiba Plant, Tonosho-machi, Katori-gun, Chiba

The project boosted production capacity and strengthened a stable supply to meet customer quality requirements and rising demand, increasing the production capacity of materials for advanced semiconductors at the Chiba Plant by up to 1.8 times compared to fiscal year ended March 2022.
