## New FY 2021 Organizational Structure and Execution System

Our new FY 2021 organizational structure and execution system, discussed at the 28 January 2021 board meeting, is summarized below.

### 1. Organizational Structure

In line with the 'Carbon Neutrality by 2050' policy announced by the Japanese Government in 2020, we need to further strengthen our 'Carbon Neutrality', 'Green Energy' and 'Hydrogen' business activities. The Business Development Divisions for the 'Energy Business' and 'Global Environment & Green Energy Business' will therefore be integrated to improve our business development capability.

### 2. Execution System

Please refer to the attachments listed below.

Responsible Chief Officers and Officers in Charge will be announced in due course.
