Chiyoda Corporation and Yokohama National University Sign a General Collaboration Agreement

Chiyoda Corporation (Chiyoda) and Yokohama National University (YNU) have signed a General Collaboration Agreement to jointly contribute to developing industries through research and development (R&D) and fostering human resources. Chiyoda and YNU currently collaborate in the R&D of hydrogen and plant safety technologies and sharing knowledge through this agreement will strengthen the relationship to resolve social and industrial issues.

[Collaboration Items]

- ① Selecting joint R&D themes to resolve social and industrial issues.
- ② Studying items to accelerate commercializing new technologies.
- ③ Promoting inter-company personnel dialogue.
- ④ Human resource development.
- ⑤ Any other items to meet the agreements objectives.

Sakakida CEO (Chiyoda)
and Umehara President (YNU)

Signing Ceremony

[Chiyoda and YNU]

Under a corporate philosophy of 'Harmony between Energy and Environment', Chiyoda has a successful track record in the R&D of state-of-art technologies and supports carbon neutrality by leveraging its core technology, 'SPERA Hydrogen'.

YNU promotes R&D of electrochemistry in the chemical energy field at the newly established Advanced Chemical Energy Research Center in the Institute of Advanced Sciences (IAS).

Through this agreement, Chiyoda and YNU will jointly investigate and select R&D themes, while continuing current R&D activities such as hydrogen energy and fuel cells, and promoting inter-company personnel collaboration to support society through human resource development.

[Chiyoda Corporation]

Since being established in 1948, Chiyoda has grown to 5,200 employees by successfully providing its services and delivering projects in over sixty (60) countries in sectors such as oil & gas, chemicals and petrochemicals, general industries, life science, renewable energy and the environment. Through its global headquarters in Minatomirai, Yokohama (Japan), Chiyoda will continue contributing to realizing society's sustainable development.

[Yokohama National University]

YNU was established in 1949 as a national university by integrating four (4) old-education-system schools and has five (5) colleges and five (5) graduate schools at its campus in Tokiwadai, Hodogaya-ku, Yokohama. YNU declares that it will make every effort to establish a strong footing in academic research and education by upholding four (4) fundamental principles: 'Be Active', 'Be Innovative', 'Be Open' and 'Be Global', cultivated as the spirit of YNU throughout its history.
