## **Regarding the Pacific Coast of Tohoku Earthquake**

We offer its sympathies to those affected by the devastating earthquake of March 11 that struck the Pacific Coast of the Tohoku region.

We sincerely hope that the afflicted areas can realize a quick recovery.

< Regarding the Impact on Our Operations >

We would like to express our sincere gratitude for the many messages of concern we have received from across Japan and around the world in the days following the Pacific Coast of Tohoku Earthquake.

Immediately after the earthquake struck, we established an emergency headquarters at our head office in Yokohama (led by CEO Mr. Kubota), which has confirmed that Chiyoda Group employees and its facilities including field offices are all safe and unharmed.

We are in operation despite the planned “rolling” power outages in Tokyo and its vicinity and doing our best to minimize the influence from the disaster. We would like to ask for your continued support and understanding in the meantime.
