**Chiyoda Awarded Engineering, Procurement, and Construction
of New Facility Project for Liquid Chromatography Separation and Purification Media**

Chiyoda Corporation (“Chiyoda”, TSE: ISIN: JP3528600004) is pleased to announce that Chiyoda has been awarded a contract from Tosoh Corporation for Engineering, Procurement, and Construction (EPC) of a new facility for liquid chromatography separation and purification media at Nanyo Complex, in Shunan, Yamaguchi Prefecture, Japan.

1. Client: Tosoh Corporation.
2. Location: Shunan, Yamaguchi Prefecture, Japan
3. Scope: EPC lump sum
4. Completion: Summer, 2018
5. Project Outline:

This project is to construct a new facility to manufacture liquid chromatography separation and purification media, which will increase the production capacity by nearly 50%. This increased capacity is in response to growing global demand for purification media from the antibody drug manufacturing industry in Japan, the United States, European countries, China, India, and in developing countries.

Chiyoda’s experience and accumulated know-how resulted in the award of this advanced plant’s construction. To meet the client’s expectations, Chiyoda will build a world class facility.
